CV Writing Guide

91 Ready-to-Use AI Prompts · One Per Section · Every Career Track

Project X — Summer Fellowship Program 2026

How to Use This Guide

- 1. Find your career track and role (e.g. Product Management, Software Engineering).
- 2. Find the CV section you want to write (e.g. Section 3 — Experience).
- 3. Copy the entire prompt block below that section heading.
- 4. Paste it into ChatGPT, Claude, or Gemini as your message.
- 5. Replace everything inside [SQUARE BRACKETS] with your actual information.
- 6. Send it. Review the output, then rewrite it in your own voice before adding to your CV.

> *Never submit AI output word-for-word. Recruiters can spot it. Use the output as a strong draft, then personalize it with your own voice, specific details, and honest language.*

Standard Harvard-Style CV — Section Order

- Section 1 — Name & Contact Information
- Section 2 — Professional Summary
- Section 3 — Experience (most recent first)
- Section 4 — Projects
- Section 5 — Achievements & Awards (optional)
- Section 6 — Activities & Leadership
- Section 7 — Skills & Languages

ENGINEERING TRACK

Software Engineering (SWE)

Backend · Frontend · Full-Stack · Mobile

Copy each prompt below → paste into ChatGPT / Claude / Gemini → replace [BRACKETS] → send.

Section 1 — Name & Contact Information

```
You are an expert CV consultant specializing in Software Engineering (SWE) roles in
the tech industry.

I will now give you my personal contact details. Your job is to format them into a
clean, professional contact header for the top of my Harvard-style CV.

Format the output as a single clean line or two lines maximum. Include: full name,
phone number, email, LinkedIn URL, GitHub or portfolio URL (if I provide one), and
city/country. Separate each item with a vertical bar (|) or a bullet point.

Rules:
- Do not include my full home address — city and country only
- Do not add any labels like "Email:" or "Phone:" — just the values
- If I do not provide a GitHub or portfolio, leave it out
- Keep it clean and scannable

Here are my details:
- Full name: [YOUR FULL NAME]
- Phone: [YOUR PHONE NUMBER]
- Email: [YOUR EMAIL ADDRESS]
- LinkedIn: [YOUR LINKEDIN URL]
- GitHub / Portfolio / Behance: [YOUR LINK OR WRITE "none"]
- City, Country: [YOUR CITY, COUNTRY]
```

Section 2 — Professional Summary

```
You are an expert CV consultant specializing in Software Engineering (SWE) roles in
the tech industry.

Write a Professional Summary for my CV. It must be exactly 2-3 sentences. No
personal pronouns (do not use "I", "my", or "we"). Start with my experience level
or key strength, include one quantifiable result if I provide one, and end with my
career direction.

Make it specific to Software Engineering (SWE). Avoid generic filler phrases like
"passionate about", "team player", "results-driven", or "dynamic professional".

Here is my background:
- Current status: [e.g. "Final-year student", "1 year of internship experience", "2
years as a data analyst"]
- Top 1-2 strengths relevant to Software Engineering (SWE): [YOUR STRENGTHS]
- One achievement or result you are proud of (include numbers if possible): [YOUR
ACHIEVEMENT]
```

```
- Type of role or company you are targeting: [YOUR TARGET e.g. "PM role at a Series B startup" or "SWE role at a product-led tech company"]
```

Section 3 — Experience

```
You are an expert CV consultant specializing in Software Engineering (SWE) roles in the tech industry.

I will give you one work experience entry. Transform it into 3-5 strong bullet points for my CV using the ACE formula:
Action Verb → Context (what, how, with whom, at what scale) → End Result (quantified outcome)

Rules:
- No personal pronouns
- Past tense for completed roles, present tense for current roles
- Start each bullet with a strong action verb
- Include at least one number per bullet (%, headcount, revenue, time saved, volume)
- Highlight skills and tools relevant to Software Engineering (SWE)
- Do not list responsibilities — show impact and ownership

Here is my experience entry:

Company name: [COMPANY NAME]
Role title: [YOUR TITLE]
Duration: [e.g. Jun 2024 - Aug 2024]
What I did day-to-day: [DESCRIBE FREELY — no formatting needed, just tell me what you actually did]
Tools / methods / frameworks I used: [LIST TOOLS]
Results or metrics I remember (rough estimates are fine): [ANY NUMBERS OR OUTCOMES]

---
If you have more than one experience, paste additional entries below in the same format, separated by "---".
```

Section 4 — Projects

```
You are an expert CV consultant specializing in Software Engineering (SWE) roles in the tech industry.

I will describe one of my projects. Write a CV project entry that includes:
1. A one-line project title and description (what it is and what problem it solves)
2. 2-3 bullet points covering: what I built, how I built it, and the result or outcome

Make the entry relevant to Software Engineering (SWE). Emphasize technical decisions, product thinking, or measurable outcomes depending on the role.

Rules:
- No personal pronouns
- Include tools, technologies, or methods used
- If I give you a GitHub or demo link, include it next to the title
- If the project is unfinished, frame it around what was built and what was learned
```

```
Here is my project:

Project name: [PROJECT NAME]
Type: [e.g. personal, academic, hackathon, open-source, freelance]
What it does / what problem it solves: [DESCRIBE]
Technologies / tools / methods used: [LIST]
Result, outcome, or key learning: [e.g. "200 users onboarded", "won 2nd place",
"grade A", "reduced processing time by 40%"]
GitHub / Demo link: [LINK OR WRITE "none"]

---
If you have more than one project, paste additional entries below in the same
format, separated by "---".
```

Section 5 — Achievements & Awards

```
You are an expert CV consultant specializing in Software Engineering (SWE) roles in
the tech industry.

I will give you a list of my achievements and awards. Format each one as a single
clean line for the Achievements & Awards section of my CV.

Each line should include: Award name — Issuing organization, Date (and a brief
context note in parentheses if relevant).

Rules:
- Most recent first
- Keep each entry to one line
- Only include competitive or merit-based recognition — skip participation
certificates
- Add context if it makes the award more impressive (e.g. "out of 500 teams", "top
5% of cohort")

Here are my awards:
[PASTE EACH AWARD ON A NEW LINE — include name, organization, date, and any context
you remember]

Example format to follow:
- Top 10 Finalist — Google Solution Challenge 2024 (out of 6,500+ global teams)
- Dean's List — School of Business, RMIT Vietnam, Semester 1 2023
```

Section 6 — Activities & Leadership

```
You are an expert CV consultant specializing in Software Engineering (SWE) roles in
the tech industry.

I will describe one or more of my extracurricular activities or volunteer
experiences. Write 1-2 bullet points per activity for the Activities & Leadership
section of my CV.

Use the ACE formula: Action Verb → Context (what, with whom, at what scale) → End
Result (impact or outcome).

Rules:
```

```
- No personal pronouns
- Highlight leadership, ownership, and transferable skills relevant to Software Engineering (SWE)
- Include numbers where possible (members led, events organized, funds raised, participants reached)
- Past tense for completed roles, present tense for current ones

Here are my activities:

Organization name: [ORGANIZATION NAME]
My role / title: [e.g. "Head of Events", "Volunteer Coordinator", "Member"]
Duration: [e.g. Sep 2022 - May 2023]
What I did: [DESCRIBE — events organized, people led, programs run, etc.]
Any outcome or result: [e.g. "150 attendees", "VND 12M raised", "30 new members recruited"]

---
Paste additional activities below in the same format, separated by "---".
```

Section 7 — Skills & Languages

```
You are an expert CV consultant specializing in Software Engineering (SWE) roles in the tech industry.

I will give you a raw list of everything I know — tools, languages, platforms, certifications. Organize them into a clean, grouped Skills section for my CV, prioritized for Software Engineering (SWE).

Rules:
- Group into relevant categories (e.g. Technical Skills, Tools & Platforms, Languages, Certifications)
- Put the most relevant categories for Software Engineering (SWE) first
- Remove soft skills (communication, teamwork, etc.) — those belong in bullet points, not here
- For spoken languages, include proficiency level (Native, Fluent, Intermediate, Basic)
- Only include things I can speak to in an interview

Here is everything I know:
[PASTE YOUR SKILLS, TOOLS, LANGUAGES, AND CERTIFICATIONS — no formatting needed, just list them out]
```

ENGINEERING TRACK

Artificial Intelligence (AI) / Machine Learning (ML)

ML Engineering · NLP · Computer Vision · LLM Applications

Copy each prompt below → paste into ChatGPT / Claude / Gemini → replace [BRACKETS] → send.

Section 1 — Name & Contact Information

```
You are an expert CV consultant specializing in Artificial Intelligence (AI) /
Machine Learning (ML) roles in the tech industry.

- Dean's List — School of Business, RMIT Vietnam, Semester 1 2023
```

Section 6 — Activities & Leadership

```
You are an expert CV consultant specializing in Data Engineering roles in the tech
industry.

I will describe one or more of my extracurricular activities or volunteer
experiences. Write 1-2 bullet points per activity for the Activities & Leadership
section of my CV.

Use the ACE formula: Action Verb → Context (what, with whom, at what scale) → End
Result (impact or outcome).

Rules:
```

```
- No personal pronouns
- Highlight leadership, ownership, and transferable skills relevant to Data Engineering
- Include numbers where possible (members led, events organized, funds raised, participants reached)
- Past tense for completed roles, present tense for current ones

Here are my activities:

Organization name: [ORGANIZATION NAME]
My role / title: [e.g. "Head of Events", "Volunteer Coordinator", "Member"]
Duration: [e.g. Sep 2022 - May 2023]
What I did: [DESCRIBE — events organized, people led, programs run, etc.]
Any outcome or result: [e.g. "150 attendees", "VND 12M raised", "30 new members recruited"]

---
Paste additional activities below in the same format, separated by "---".
```

Section 7 — Skills & Languages

```
You are an expert CV consultant specializing in Data Engineering roles in the tech industry.

I will give you a raw list of everything I know — tools, languages, platforms, certifications. Organize them into a clean, grouped Skills section for my CV, prioritized for Data Engineering.

Rules:
- Group into relevant categories (e.g. Technical Skills, Tools & Platforms, Languages, Certifications)
- Put the most relevant categories for Data Engineering first
- Remove soft skills (communication, teamwork, etc.) — those belong in bullet points, not here
- For spoken languages, include proficiency level (Native, Fluent, Intermediate, Basic)
- Only include things I can speak to in an interview

Here is everything I know:
[PASTE YOUR SKILLS, TOOLS, LANGUAGES, AND CERTIFICATIONS — no formatting needed, just list them out]
```

ENGINEERING TRACK

Cloud Engineering / DevOps

Cloud Engineer · DevOps · SRE · Platform Engineer

Copy each prompt below → paste into ChatGPT / Claude / Gemini → replace [BRACKETS] → send.

Section 1 — Name & Contact Information

```
You are an expert CV consultant specializing in Cloud Engineering / DevOps roles in
the tech industry.

I will now give you my personal contact details. Your job is to format them into a
clean, professional contact header for the top of my Harvard-style CV.

Format the output as a single clean line or two lines maximum. Include: full name,
phone number, email, LinkedIn URL, GitHub or portfolio URL (if I provide one), and
city/country. Separate each item with a vertical bar (|) or a bullet point.

Rules:
- Do not include my full home address — city and country only
- Do not add any labels like "Email:" or "Phone:" — just the values
- If I do not provide a GitHub or portfolio, leave it out
- Keep it clean and scannable

Here are my details:
- Full name: [YOUR FULL NAME]
- Phone: [YOUR PHONE NUMBER]
- Email: [YOUR EMAIL ADDRESS]
- LinkedIn: [YOUR LINKEDIN URL]
- GitHub / Portfolio / Behance: [YOUR LINK OR WRITE "none"]
- City, Country: [YOUR CITY, COUNTRY]
```

Section 2 — Professional Summary

```
You are an expert CV consultant specializing in Cloud Engineering / DevOps roles in
the tech industry.

Write a Professional Summary for my CV. It must be exactly 2-3 sentences. No
personal pronouns (do not use "I", "my", or "we"). Start with my experience level
or key strength, include one quantifiable result if I provide one, and end with my
career direction.

Make it specific to Cloud Engineering / DevOps. Avoid generic filler phrases like
"passionate about", "team player", "results-driven", or "dynamic professional".

Here is my background:
- Current status: [e.g. "Final-year student", "1 year of internship experience", "2
years as a data analyst"]
- Top 1-2 strengths relevant to Cloud Engineering / DevOps: [YOUR STRENGTHS]
- One achievement or result you are proud of (include numbers if possible): [YOUR
ACHIEVEMENT]
```

```
- Type of role or company you are targeting: [YOUR TARGET e.g. "PM role at a Series B startup" or "SWE role at a product-led tech company"]
```

Section 3 — Experience

```
You are an expert CV consultant specializing in Cloud Engineering / DevOps roles in the tech industry.

I will give you one work experience entry. Transform it into 3-5 strong bullet points for my CV using the ACE formula:
Action Verb → Context (what, how, with whom, at what scale) → End Result (quantified outcome)

Rules:
- No personal pronouns
- Past tense for completed roles, present tense for current roles
- Start each bullet with a strong action verb
- Include at least one number per bullet (%, headcount, revenue, time saved, volume)
- Highlight skills and tools relevant to Cloud Engineering / DevOps
- Do not list responsibilities — show impact and ownership

Here is my experience entry:

Company name: [COMPANY NAME]
Role title: [YOUR TITLE]
Duration: [e.g. Jun 2024 - Aug 2024]
What I did day-to-day: [DESCRIBE FREELY — no formatting needed, just tell me what you actually did]
Tools / methods / frameworks I used: [LIST TOOLS]
Results or metrics I remember (rough estimates are fine): [ANY NUMBERS OR OUTCOMES]

---
If you have more than one experience, paste additional entries below in the same format, separated by "---".
```

Section 4 — Projects

```
You are an expert CV consultant specializing in Cloud Engineering / DevOps roles in the tech industry.

I will describe one of my projects. Write a CV project entry that includes:
1. A one-line project title and description (what it is and what problem it solves)
2. 2-3 bullet points covering: what I built, how I built it, and the result or outcome

Make the entry relevant to Cloud Engineering / DevOps. Emphasize technical decisions, product thinking, or measurable outcomes depending on the role.

Rules:
- No personal pronouns
- Include tools, technologies, or methods used
- If I give you a GitHub or demo link, include it next to the title
- If the project is unfinished, frame it around what was built and what was learned
```

```
Here is my project:

Project name: [PROJECT NAME]
Type: [e.g. personal, academic, hackathon, open-source, freelance]
What it does / what problem it solves: [DESCRIBE]
Technologies / tools / methods used: [LIST]
Result, outcome, or key learning: [e.g. "200 users onboarded", "won 2nd place",
"grade A", "reduced processing time by 40%"]
GitHub / Demo link: [LINK OR WRITE "none"]

---
If you have more than one project, paste additional entries below in the same
format, separated by "---".
```

Section 5 — Achievements & Awards

```
You are an expert CV consultant specializing in Cloud Engineering / DevOps roles in
the tech industry.

I will give you a list of my achievements and awards. Format each one as a single
clean line for the Achievements & Awards section of my CV.

Each line should include: Award name — Issuing organization, Date (and a brief
context note in parentheses if relevant).

Rules:
- Most recent first
- Keep each entry to one line
- Only include competitive or merit-based recognition — skip participation
certificates
- Add context if it makes the award more impressive (e.g. "out of 500 teams", "top
5% of cohort")

Here are my awards:
[PASTE EACH AWARD ON A NEW LINE — include name, organization, date, and any context
you remember]

Example format to follow:
- Top 10 Finalist — Google Solution Challenge 2024 (out of 6,500+ global teams)
- Dean's List — School of Business, RMIT Vietnam, Semester 1 2023
```

Section 6 — Activities & Leadership

```
You are an expert CV consultant specializing in Cloud Engineering / DevOps roles in
the tech industry.

I will describe one or more of my extracurricular activities or volunteer
experiences. Write 1-2 bullet points per activity for the Activities & Leadership
section of my CV.

Use the ACE formula: Action Verb → Context (what, with whom, at what scale) → End
Result (impact or outcome).

Rules:
```

```
- No personal pronouns

you remember]

Example format to follow:
- Top 10 Finalist — Google Solution Challenge 2024 (out of 6,500+ global teams)
- Dean's List — School of Business, RMIT Vietnam, Semester 1 2023
```

Section 6 — Activities & Leadership

```
You are an expert CV consultant specializing in Business Analytics (BA) roles in
the tech industry.

I will describe one or more of my extracurricular activities or volunteer
experiences. Write 1-2 bullet points per activity for the Activities & Leadership
section of my CV.

Use the ACE formula: Action Verb → Context (what, with whom, at what scale) → End
Result (impact or outcome).

Rules:
```

```
- No personal pronouns
- Highlight leadership, ownership, and transferable skills relevant to Business Analytics (BA)
- Include numbers where possible (members led, events organized, funds raised, participants reached)
- Past tense for completed roles, present tense for current ones

Here are my activities:

Organization name: [ORGANIZATION NAME]
My role / title: [e.g. "Head of Events", "Volunteer Coordinator", "Member"]
Duration: [e.g. Sep 2022 - May 2023]
What I did: [DESCRIBE — events organized, people led, programs run, etc.]
Any outcome or result: [e.g. "150 attendees", "VND 12M raised", "30 new members recruited"]

---
Paste additional activities below in the same format, separated by "---".
```

Section 7 — Skills & Languages

```
You are an expert CV consultant specializing in Business Analytics (BA) roles in the tech industry.

I will give you a raw list of everything I know — tools, languages, platforms, certifications. Organize them into a clean, grouped Skills section for my CV, prioritized for Business Analytics (BA).

Rules:
- Group into relevant categories (e.g. Technical Skills, Tools & Platforms, Languages, Certifications)
- Put the most relevant categories for Business Analytics (BA) first
- Remove soft skills (communication, teamwork, etc.) — those belong in bullet points, not here
- For spoken languages, include proficiency level (Native, Fluent, Intermediate, Basic)
- Only include things I can speak to in an interview

Here is everything I know:
[PASTE YOUR SKILLS, TOOLS, LANGUAGES, AND CERTIFICATIONS — no formatting needed, just list them out]
```

PRODUCT & ANALYTICS TRACK

UI/UX / Product Design

UX Designer · UI Designer · Product Designer · Design Researcher

---

Copy each prompt below → paste into ChatGPT / Claude / Gemini → replace [BRACKETS] → send.

Section 1 — Name & Contact Information

```
You are an expert CV consultant specializing in UI/UX / Product Design roles in the
tech industry.

I will now give you my personal contact details. Your job is to format them into a
clean, professional contact header for the top of my Harvard-style CV.

Format the output as a single clean line or two lines maximum. Include: full name,
phone number, email, LinkedIn URL, GitHub or portfolio URL (if I provide one), and
city/country. Separate each item with a vertical bar (|) or a bullet point.

Rules:
- Do not include my full home address — city and country only
- Do not add any labels like "Email:" or "Phone:" — just the values
- If I do not provide a GitHub or portfolio, leave it out
- Keep it clean and scannable

Here are my details:
- Full name: [YOUR FULL NAME]
- Phone: [YOUR PHONE NUMBER]
- Email: [YOUR EMAIL ADDRESS]
- LinkedIn: [YOUR LINKEDIN URL]
- GitHub / Portfolio / Behance: [YOUR LINK OR WRITE "none"]
- City, Country: [YOUR CITY, COUNTRY]
```

Section 2 — Professional Summary

```
You are an expert CV consultant specializing in UI/UX / Product Design roles in the
tech industry.

Write a Professional Summary for my CV. It must be exactly 2-3 sentences. No
personal pronouns (do not use "I", "my", or "we"). Start with my experience level
or key strength, include one quantifiable result if I provide one, and end with my
career direction.

Make it specific to UI/UX / Product Design. Avoid generic filler phrases like
"passionate about", "team player", "results-driven", or "dynamic professional".

Here is my background:
- Current status: [e.g. "Final-year student", "1 year of internship experience", "2
years as a data analyst"]
- Top 1-2 strengths relevant to UI/UX / Product Design: [YOUR STRENGTHS]
- One achievement or result you are proud of (include numbers if possible): [YOUR
ACHIEVEMENT]
```

```
- Type of role or company you are targeting: [YOUR TARGET e.g. "PM role at a Series
B startup" or "SWE role at a product-led tech company"]
```

Section 3 — Experience

```
You are an expert CV consultant specializing in UI/UX / Product Design roles in the
tech industry.

I will give you one work experience entry. Transform it into 3-5 strong bullet
points for my CV using the ACE formula:
Action Verb → Context (what, how, with whom, at what scale) → End Result
(quantified outcome)

Rules:
- No personal pronouns
- Past tense for completed roles, present tense for current roles
- Start each bullet with a strong action verb
- Include at least one number per bullet (%, headcount, revenue, time saved,
volume)
- Highlight skills and tools relevant to UI/UX / Product Design
- Do not list responsibilities — show impact and ownership

Here is my experience entry:

Company name: [COMPANY NAME]
Role title: [YOUR TITLE]
Duration: [e.g. Jun 2024 - Aug 2024]
What I did day-to-day: [DESCRIBE FREELY — no formatting needed, just tell me what
you actually did]
Tools / methods / frameworks I used: [LIST TOOLS]
Results or metrics I remember (rough estimates are fine): [ANY NUMBERS OR OUTCOMES]

---
If you have more than one experience, paste additional entries below in the same
format, separated by "---".
```

Section 4 — Projects

```
You are an expert CV consultant specializing in UI/UX / Product Design roles in the
tech industry.

I will describe one of my projects. Write a CV project entry that includes:
1. A one-line project title and description (what it is and what problem it solves)
2. 2-3 bullet points covering: what I built, how I built it, and the result or
outcome

Make the entry relevant to UI/UX / Product Design. Emphasize technical decisions,
product thinking, or measurable outcomes depending on the role.

Rules:
- No personal pronouns
- Include tools, technologies, or methods used
- If I give you a GitHub or demo link, include it next to the title
- If the project is unfinished, frame it around what was built and what was learned
```

```
Here is my project:

Project name: [PROJECT NAME]
Type: [e.g. personal, academic, hackathon, open-source, freelance]
What it does / what problem it solves: [DESCRIBE]
Technologies / tools / methods used: [LIST]
Result, outcome, or key learning: [e.g. "200 users onboarded", "won 2nd place",
"grade A", "reduced processing time by 40%"]
GitHub / Demo link: [LINK OR WRITE "none"]

---
If you have more than one project, paste additional entries below in the same
format, separated by "---".
```

Section 5 — Achievements & Awards

```
You are an expert CV consultant specializing in UI/UX / Product Design roles in the
tech industry.

I will give you a list of my achievements and awards. Format each one as a single
clean line for the Achievements & Awards section of my CV.

Each line should include: Award name — Issuing organization, Date (and a brief
context note in parentheses if relevant).

Rules:
- Most recent first
- Keep each entry to one line
- Only include competitive or merit-based recognition — skip participation
certificates
- Add context if it makes the award more impressive (e.g. "out of 500 teams", "top
5% of cohort")

Here are my awards:
[PASTE EACH AWARD ON A NEW LINE — include name, organization, date, and any context
you remember]

Example format to follow:
- Top 10 Finalist — Google Solution Challenge 2024 (out of 6,500+ global teams)
- Dean's List — School of Business, RMIT Vietnam, Semester 1 2023
```

Section 6 — Activities & Leadership

```
You are an expert CV consultant specializing in UI/UX / Product Design roles in the
tech industry.

I will describe one or more of my extracurricular activities or volunteer
experiences. Write 1-2 bullet points per activity for the Activities & Leadership
section of my CV.

Use the ACE formula: Action Verb → Context (what, with whom, at what scale) → End
Result (impact or outcome).

Rules:
```

```
- No personal pronouns
- Highlight leadership, ownership, and transferable skills relevant to UI/UX / Product Design

You are an expert CV consultant specializing in Digital Marketing (Tech-focused)
roles in the tech industry.

I will give you a list of my achievements and awards. Format each one as a single
clean line for the Achievements & Awards section of my CV.

Each line should include: Award name — Issuing organization, Date (and a brief
context note in parentheses if relevant).

Rules:
- Most recent first
- Keep each entry to one line
- Only include competitive or merit-based recognition — skip participation
certificates
- Add context if it makes the award more impressive (e.g. "out of 500 teams", "top
5% of cohort")

Here are my awards:
[PASTE EACH AWARD ON A NEW LINE — include name, organization, date, and any context
you remember]

Example format to follow:
- Top 10 Finalist — Google Solution Challenge 2024 (out of 6,500+ global teams)
- Dean's List — School of Business, RMIT Vietnam, Semester 1 2023
```

Section 6 — Activities & Leadership

```
You are an expert CV consultant specializing in Digital Marketing (Tech-focused)
roles in the tech industry.

I will describe one or more of my extracurricular activities or volunteer
experiences. Write 1-2 bullet points per activity for the Activities & Leadership
section of my CV.

Use the ACE formula: Action Verb → Context (what, with whom, at what scale) → End
Result (impact or outcome).

Rules:
```

```
- No personal pronouns
- Highlight leadership, ownership, and transferable skills relevant to Digital Marketing (Tech-focused)
- Include numbers where possible (members led, events organized, funds raised, participants reached)
- Past tense for completed roles, present tense for current ones

Here are my activities:

Organization name: [ORGANIZATION NAME]
My role / title: [e.g. "Head of Events", "Volunteer Coordinator", "Member"]
Duration: [e.g. Sep 2022 - May 2023]
What I did: [DESCRIBE — events organized, people led, programs run, etc.]
Any outcome or result: [e.g. "150 attendees", "VND 12M raised", "30 new members recruited"]

---
Paste additional activities below in the same format, separated by "---".
```

Section 7 — Skills & Languages

```
You are an expert CV consultant specializing in Digital Marketing (Tech-focused) roles in the tech industry.

I will give you a raw list of everything I know — tools, languages, platforms, certifications. Organize them into a clean, grouped Skills section for my CV, prioritized for Digital Marketing (Tech-focused).

Rules:
- Group into relevant categories (e.g. Technical Skills, Tools & Platforms, Languages, Certifications)
- Put the most relevant categories for Digital Marketing (Tech-focused) first
- Remove soft skills (communication, teamwork, etc.) — those belong in bullet points, not here
- For spoken languages, include proficiency level (Native, Fluent, Intermediate, Basic)
- Only include things I can speak to in an interview

Here is everything I know:
[PASTE YOUR SKILLS, TOOLS, LANGUAGES, AND CERTIFICATIONS — no formatting needed, just list them out]
```

TECH-ENABLED BUSINESS ROLES

Operations (Tech Operations / Process Automation)

Ops Manager · Process Analyst · Automation Specialist

Copy each prompt below → paste into ChatGPT / Claude / Gemini → replace [BRACKETS] → send.

Section 1 — Name & Contact Information

```
You are an expert CV consultant specializing in Operations (Tech Operations /
Process Automation) roles in the tech industry.

I will now give you my personal contact details. Your job is to format them into a
clean, professional contact header for the top of my Harvard-style CV.

Format the output as a single clean line or two lines maximum. Include: full name,
phone number, email, LinkedIn URL, GitHub or portfolio URL (if I provide one), and
city/country. Separate each item with a vertical bar (|) or a bullet point.

Rules:
- Do not include my full home address — city and country only
- Do not add any labels like "Email:" or "Phone:" — just the values
- If I do not provide a GitHub or portfolio, leave it out
- Keep it clean and scannable

Here are my details:
- Full name: [YOUR FULL NAME]
- Phone: [YOUR PHONE NUMBER]
- Email: [YOUR EMAIL ADDRESS]
- LinkedIn: [YOUR LINKEDIN URL]
- GitHub / Portfolio / Behance: [YOUR LINK OR WRITE "none"]
- City, Country: [YOUR CITY, COUNTRY]
```

Section 2 — Professional Summary

```
You are an expert CV consultant specializing in Operations (Tech Operations /
Process Automation) roles in the tech industry.

Write a Professional Summary for my CV. It must be exactly 2-3 sentences. No
personal pronouns (do not use "I", "my", or "we"). Start with my experience level
or key strength, include one quantifiable result if I provide one, and end with my
career direction.

Make it specific to Operations (Tech Operations / Process Automation). Avoid
generic filler phrases like "passionate about", "team player", "results-driven", or
"dynamic professional".

Here is my background:
- Current status: [e.g. "Final-year student", "1 year of internship experience", "2
years as a data analyst"]
- Top 1-2 strengths relevant to Operations (Tech Operations / Process Automation):
[YOUR STRENGTHS]
```

```
- One achievement or result you are proud of (include numbers if possible): [YOUR ACHIEVEMENT]
- Type of role or company you are targeting: [YOUR TARGET e.g. "PM role at a Series B startup" or "SWE role at a product-led tech company"]
```

Section 3 — Experience

```
You are an expert CV consultant specializing in Operations (Tech Operations / Process Automation) roles in the tech industry.

I will give you one work experience entry. Transform it into 3-5 strong bullet points for my CV using the ACE formula:
Action Verb → Context (what, how, with whom, at what scale) → End Result (quantified outcome)

Rules:
- No personal pronouns
- Past tense for completed roles, present tense for current roles
- Start each bullet with a strong action verb
- Include at least one number per bullet (%, headcount, revenue, time saved, volume)
- Highlight skills and tools relevant to Operations (Tech Operations / Process Automation)
- Do not list responsibilities — show impact and ownership

Here is my experience entry:

Company name: [COMPANY NAME]
Role title: [YOUR TITLE]
Duration: [e.g. Jun 2024 - Aug 2024]
What I did day-to-day: [DESCRIBE FREELY — no formatting needed, just tell me what you actually did]
Tools / methods / frameworks I used: [LIST TOOLS]
Results or metrics I remember (rough estimates are fine): [ANY NUMBERS OR OUTCOMES]

---
If you have more than one experience, paste additional entries below in the same format, separated by "---".
```

Section 4 — Projects

```
You are an expert CV consultant specializing in Operations (Tech Operations / Process Automation) roles in the tech industry.

I will describe one of my projects. Write a CV project entry that includes:
1. A one-line project title and description (what it is and what problem it solves)
2. 2-3 bullet points covering: what I built, how I built it, and the result or outcome

Make the entry relevant to Operations (Tech Operations / Process Automation). Emphasize technical decisions, product thinking, or measurable outcomes depending on the role.

Rules:
- No personal pronouns
```

```
- Include tools, technologies, or methods used
- If I give you a GitHub or demo link, include it next to the title
- If the project is unfinished, frame it around what was built and what was learned

Here is my project:

Project name: [PROJECT NAME]
Type: [e.g. personal, academic, hackathon, open-source, freelance]
What it does / what problem it solves: [DESCRIBE]
Technologies / tools / methods used: [LIST]
Result, outcome, or key learning: [e.g. "200 users onboarded", "won 2nd place",
"grade A", "reduced processing time by 40%"]
GitHub / Demo link: [LINK OR WRITE "none"]

---
If you have more than one project, paste additional entries below in the same
format, separated by "---".
```

Section 5 — Achievements & Awards

```
You are an expert CV consultant specializing in Operations (Tech Operations /
Process Automation) roles in the tech industry.

I will give you a list of my achievements and awards. Format each one as a single
clean line for the Achievements & Awards section of my CV.

Each line should include: Award name — Issuing organization, Date (and a brief
context note in parentheses if relevant).

Rules:
- Most recent first
- Keep each entry to one line
- Only include competitive or merit-based recognition — skip participation
certificates
- Add context if it makes the award more impressive (e.g. "out of 500 teams", "top
5% of cohort")

Here are my awards:
[PASTE EACH AWARD ON A NEW LINE — include name, organization, date, and any context
you remember]

Example format to follow:
- Top 10 Finalist — Google Solution Challenge 2024 (out of 6,500+ global teams)
- Dean's List — School of Business, RMIT Vietnam, Semester 1 2023
```

Section 6 — Activities & Leadership

```
You are an expert CV consultant specializing in Operations (Tech Operations /
Process Automation) roles in the tech industry.

I will describe one or more of my extracurricular activities or volunteer
experiences. Write 1-2 bullet points per activity for the Activities & Leadership
section of my CV.
```

```
Use the ACE formula: Action Verb → Context (what, with whom, at what scale) → End
Result (impact or outcome).

Rules:
- No personal pronouns
- Highlight leadership, ownership, and transferable skills relevant to Operations
(Tech Operations / Process Automation)
- Include numbers where possible (members led, events organized, funds raised,
participants reached)
- Past tense for completed roles, present tense for current ones

Here are my activities:

Organization name: [ORGANIZATION NAME]
My role / title: [e.g. "Head of Events", "Volunteer Coordinator", "Member"]
Duration: [e.g. Sep 2022 - May 2023]
What I did: [DESCRIBE — events organized, people led, programs run, etc.]
Any outcome or result: [e.g. "150 attendees", "VND 12M raised", "30 new members
recruited"]

---
Paste additional activities below in the same format, separated by "---".
```

Section 7 — Skills & Languages

```
You are an expert CV consultant specializing in Operations (Tech Operations /
Process Automation) roles in the tech industry.

I will give you a raw list of everything I know — tools, languages, platforms,
certifications. Organize them into a clean, grouped Skills section for my CV,
prioritized for Operations (Tech Operations / Process Automation).

Rules:
- Group into relevant categories (e.g. Technical Skills, Tools & Platforms,
Languages, Certifications)
- Put the most relevant categories for Operations (Tech Operations / Process
Automation) first
- Remove soft skills (communication, teamwork, etc.) — those belong in bullet
points, not here
- For spoken languages, include proficiency level (Native, Fluent, Intermediate,
Basic)
- Only include things I can speak to in an interview

Here is everything I know:
[PASTE YOUR SKILLS, TOOLS, LANGUAGES, AND CERTIFICATIONS — no formatting needed,
just list them out]
```
